

Create IBM Watson IoT Platform And Device

The screenshot displays the IBM Watson IoT Platform user interface. At the top, the header shows the platform name and user information: 'aadhavanramajayam@gmail.com' and 'ID: bptuam'. The main navigation bar includes 'Browse', 'Action', 'Device Types', and 'Interfaces'. A sidebar on the left contains various icons for navigation. The main content area features a search bar 'Search by Device ID' and a 'Device Simulator' toggle. Below this is a table listing devices. The first device, ID 12345, is highlighted. A modal window is open showing the details for this device, including its identity, device information, recent events, state, and logs. The device information section shows: Device ID: 12345, Device Type: NodeMCU, Date Added: Nov 2, 2022 11:36 AM, Added By: aadhavanramajayam@gmail.com, and Connection Status: Disconnected. The bottom of the interface shows pagination controls: 'Items per page 50' and '1 of 1 page'.
